**Agenda Review & Modifications:** Request by the Town Clerk to add an executive session.

**Public & Staff Comments:** None at this time.

**Highway: Road Report:** D. Stone reported that regular plowing and some minor repairs are ongoing. Inspections are being scheduled for the two 10-wheelers and work is being done to clear icing and ditches in some locations. N. White-Fogarty requested a discussion about mitigation options being considered for reducing the impacts of mud season. The discussion covered some of the usual trouble spots on town roads, especially those that experience heavy use and/or have sections with southern exposures. She requested input on whether or not magnesium chloride, which is used in a watered-down manner and for different purposes, might be contributing to mud-season problems. After much input and discussion, the conclusion reached is that in addition to southern exposures, natural conditions such as ledges, clay, and water flow, all contribute to problem areas during mud season; magnesium chloride is unlikely to contribute to these problems, which can be especially bad if a rapid thawing of the roads occurs. The Road Supt. indicated that the road crew is doing everything it can to be pro-active and utilize the tools it has to address these areas. N. White-Fogarty also reported on a recent query about water permitting requirements for the new garage and asked the Admin. Asst. to follow up.

**Animal Control:** N. White-Fogarty reported there has been a recurrence of a roaming dog on VT-113. She is waiting to hear if it has been captured and returned home. She also followed up on a complaint about some dogs being left outside when temperatures were very low. She made a home visit and learned there is an accessible structure with a roof with bedding available for the dogs and deemed adequate to the need. She has also followed up on a biting incident that involved a new dog in Vershire. At this time, the owner is cooperating fully with all requests for licensing, vaccination updating, and other restraint and signage measures requested in order to keep passersby and visitors to the house safe. The Admin. Asst will follow up to ensure compliance with these requests.

**Vershire Emergency Management Planning:** E. Murphy presented requests for approval by The Vershire Emergency Management Team (VEMT). She answered all questions during the discussions regarding these requests:
