SB Meetings -

The cleaning person is Chelsea until next March. Amy has mouse-proofed the building except the hot water heater room which needs a ceiling in order to do that. Reva will talk to Uriah about that along with the second bathroom getting a shelf. Looking for a plumber to deal with the pipes.

First Aid kit, where did it go and what does Eileen suggest? Reva to follow up. AED: Reva will check with Pat Barnes as to by whom and when is the AED checked.

The refrigerator is working fine, finally. Thank you Gretchen.

Rec Committee - Ken

The End of Summer Party was cancelled due to lack of interest.

The trail on the VTCC property is coming along really well. It was moved a little farther away from the boundary line in the field so as not to disturb Peet's dogs.

VerShare is not hosting the Fall Festival this year. TMS will be hosting the run and the festival with tours of the old Village by the VHS.

VHS - Reva - Tree lighting Dec 5 4 pm

Renovations and Projects Update

Light bulbs - Nicole found a source for dimmable ones which can match the ones we have. Pizza Oven was unintentionally misused because it was unlocked and there needs to be a covering over the lower opening. Gretchen will be following up on that.

Calligrapher would like to make the corrections on the Pavilion list. Caro to follow up

Shelf and ceiling installed in the hot water heater room - Uriah

Wooden Sign - Caro will fill it with putty and repaint the picture.
