**Call to Order:**

**Agenda Review & Modifications:**

**Public & Staff Comments:**

**Guest: Eileen Murphy – Emergency Management person for Vershire**

Discuss:

- how we can intersect with the organizational structure and initiatives they've spearheaded, identifying mutual goals and objectives.
- Possible areas of discussion: 1. structure of cells 2. integrating emergency thinking as called for by the Town Plan. 3. how we can help on the ground in prep? 4. ham radios? (we get at least one person from each section to ham radio training) 5. water: accessible springs in each section? 6. food systems within each cell.
- Maybe the overall structure and how we might acknowledge that in our work ... we are within a bigger system and this is our role

**Report from Development Officer Aaron Hoopes**

**Approval of Minutes of October 8, 2025 meeting:**

**Discussion of Town Plan and Ordinance/Bylaw amendments and additions**
